NOTICE TO OUR PATRONS

WE WANT your trade, and in return we expect to give better goods than can be bought elsewhere for the same money. We make no boast of being the cheapest house on earth, for cheapness is a sign of poor quality. We aim to charge a fair price and in return give you the best that workmanship and years of experience can produce. We try to make every article so good that whoever buys it will find it to their advantage to send us another order. We want your future trade, and one order makes no difference with us; we want your future trade as long as you use these goods, and in order to hold your trade we are willing to give you the best.

In getting up this catalogue we have tried to make everything as plain and comprehensive as possible, and there is nothing in it that is intended to deceive or misrepresent in any way. You will find all work above your expectations as we handle only goods that we know will prove satisfactory.

Everything is guaranteed to be as represented. Every article is thoroughly examined, tested, and tried out before shipping, and nothing goes out unless it is right in every way.

We fill all orders promptly, or notify you by return mail if for any reason we cannot do so.

OUR TRANSPARENT DICE WORK

We do not recommend, or do we load smaller transparent dice than ½ inch. They can be loaded same as the larger dice but they will not work, for the reason, the eyes are too small to take the proper amount of gold. ½, 9/16, ⅝, and 21/32 are the proper sizes for the filled weights in transparent.

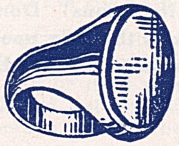
RING AND SHINER



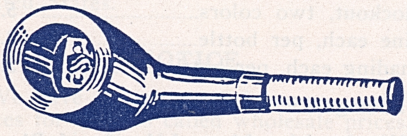
This is one of the greatest little devices ever dreamed of to read cards while you are dealing. With this it is not necessary for marked cards. You can deal a man cards and tell him every card he is holding in his hand—a marvelous wonder to him. Shiner is convex shape so that when cards are held out only one-half inch from shiner the whole face of the card is visible (not just a corner, as most shiners do). Nothing stuck to palm of hand, therefore nothing conspicuous.

Only to be sold by us for exposure of gambling or magician's use. Should be worn on little finger. Correct measurement must be sent with order.

Price $6.00

Upon request we will send ring size card for correct measurement.

THE REFLECTING PIPE SHINER



Pipe is not furnished. The shiner is made to fit any pipe; can be smoked same as pipe without shiner in it.

Price $2.00

THE VERY LATEST THING IN THE SHINER LINE

These Shiners are made from metal, this metal takes the highest polish, and this polish will stand the hardest usage with no effect on the reflecting part. The reflecting qualities of this metal were discovered during our late war, which proved to us the metal was far superior for us to use than the old style glass shiners. These shiners are used when dealing the cards. With one of these shiners you can deal the cards in a natural way and tell every card you have dealt off the pack. Magicians find them very valuable in doing tricks. If you want a shiner, these cannot be beat.

These shiners we furnish in a hand paster shiner (sticks to palm of hand), or ring reflecting shiner. The ring reflecting shiner has attachment to fasten to ring.
